

### **ACTIVE – PLATFORM AND ALL MATERIALS PUBLISHED**

*The European project AcTive, which aimed at promoting assistive technologies for older persons, has ended. The project's website ([www.active-ict.eu](http://www.active-ict.eu)) grants access to learning materials and an interactive online platform.*

AcTive (Development of a Training Program for the Improvement of Active and Healthy Ageing through the Exploitation of High-Tech Assistive Technologies) aimed at increasing technological and digital skills of older persons. The overall aim of the project was to support older persons, their peers, family, but also professionals in the use of assistive technologies. Therefore, learning materials and an interactive online platform were developed.

Via [www.active-ict.eu](http://www.active-ict.eu) you can access the project website, where you will find different learning materials with background information on ageing and technology, assistive devices, and also several exercises. The online platform lets you play games, create your own materials and communicate with others.

The consortium was formed by the following entities:

- Institute for Work and Technology (Germany)
- E -SENIORS (France),
- Centrul IT pentru Stiinta si Tehnologie (Romania),
- Stowarzyszenie Spoleczenstwa Wiedzy (Poland),
- GESTIO SOCIO SANITARIA AL MEDITERRANI SL (Spain),
- Instituts für Sozialforschung und Sozialwirtschaft e.V. (Germany)

AcTive was funded by the European Commission within the ERASMUS+ 2016 Programme.
